Biografie TiM

TiM is a 21-year-old singer-songwriter and producer, born and raised in The Netherlands. It all started at the age of 5 when he was given his first guitar. He couldn't let go of it, so his parents signed him up for guitar lessons at the local music school. While practicing his guitar skills, Tim started to sing along and he hasn't stopped singing since. From a very early age it became clear that music and performing for an audience would be his biggest passion. At just 7 years old, Tim made his debut as a busker on the stairs of the Sacré-Cœur, during a trip in Paris with his family. Playing iconic songs from The Beatles, Abba and Ed Sheeran would gather tourists from all over the world. Doing the same thing in other major European cities like Barcelona, would eventually lead to him taking part in season 5 of The Voice Kids. Tim made it to national television with his "Blind Audition".

At the start of 2021, Tim decided to explore the musical side of social media. His covers managed to reach a lot of people on TikTok specifically. Due to multiple viral videos, his fan base started to grow rapidly.

After years of practicing, performing, and gaining experience, the Dutch artist is now focussing on creating his own music. TiM. wants to create songs that stand the test of time. While the upcoming artist is still at the very beginning of his music journey, he's in it for the long haul.

"I just want to make people happy with my music and help them create memories for life."
